

# Prevent Student Dropout using Time-out Projects

# European target (EU2020):

less than 10%

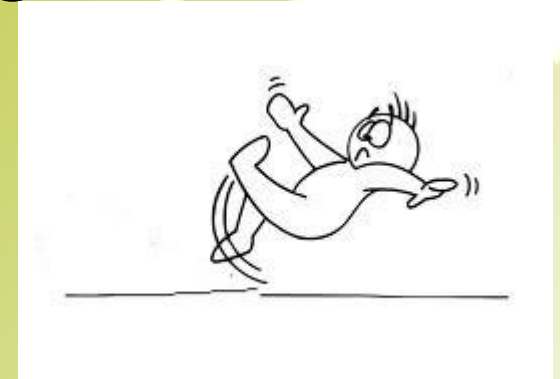

## Flemish target:

Actual situation: 8,60%  
decrease to 4,30% in 2020

## RISKS for dropout:

- socio-economic background
- ethnic background
- seks
- school career !
- attraction of job market (money)

## Parameters for dropout:

Truancy, frequent absence are strong indications for future dropout!

## Flemish Government:

- stimulating nursery school
- obligatory education (18 years)
- improvement system  
    'learning-working'
- reformation of secondary schools

**PREVENTION**

## Flemish Government :

- website 'onderwijskiezer'  
(online education help tool)
- obligation of company work
- strong link between school  
and labour market

**PREVENTION**

## School:

- creation of a positive school climate
- student coaching
- coaching choice studies/jobs
- support learning Dutch

**PREVENTION**

## Government official rules: absences:

- 10 illegal: CLB-intervention  
(Center for Student Accompaniment)
- 30 illegal: forward list to the  
police

## School actions:

- control absences
- intervention of student accompaniment
- consultation CLB

**INTERVENTION**

# Solutions 1/2: (by Flemish government)
